

TRANSACTIONS OF THE AMERICAN MATHEMATICAL SOCIETY INDEX, VOLUMES 61-70

1947-1951

	VOL.	PAGES
AGMON, S. Functions of exponential type in an angle and singularities of Taylor series.....	70 ₁	492-508
ALBERT, A. A. Power-associative rings.....	64 ₁	552-593
— A theory of power-associative commutative algebras...	69 ₁	503-527
AMBROSE, W. Measures on locally compact topological groups.....	61 ₁	106-121
— Direct sum theorem for Haar measures.....	61 ₁	122-127
— The L_2 -system of a unimodular group. I.....	65 ₁	27- 48
ANDERSON, R. D. Concerning upper semi-continuous collections of continua.....	67 ₂	451-460
ARENS, R. F., and KAPLANSKY, I. Topological representation of algebras.....	63 ₁	457-481
ARENS, R. F., and KELLEY, J. L. Characterizations of the space of continuous functions over a compact Hausdorff space.....	62 ₁	499-508
ARONSZAJN, N. Theory of reproducing kernels.....	68 ₁	337-404
BAER, R. Splitting endomorphisms.....	61 ₁	508-516
— Endomorphism rings of operator loops.....	61 ₁	517-529
— Direct decompositions.....	62 ₁	62- 98
— Direct decompositions into infinitely many summands.....	64 ₁	519-551
— Free mobility and orthogonality.....	68 ₁	439-460
BELL, P. O., and GREER, E. A study of analytic surfaces by means of a projective theory of envelopes.....	64 ₂	253-267
BELLMAN, R. On the boundedness of solutions of nonlinear differential and difference equations.....	62 ₁	357-386
— On the existence and boundedness of solutions of nonlinear partial differential equations of parabolic type....	64 ₁	21- 44
BERGMAN, S. Two-dimensional subsonic flows of a compressible fluid and their singularities.....	62 ₁	452-498
— Functions of extended class in the theory of functions of several complex variables.....	63 ₁	523-547
— Errata for Two-dimensional subsonic flows of a compressible fluid and their singularities.....	63 ₁	599-600
— On solutions with algebraic character of linear partial differential equations.....	68 ₁	461-507
BERKOVITZ, L. D. Circular summation and localization of double trigonometric series.....	70 ₂	323-344

	VOL.	PAGES
BERS, L. Boundary value problems for minimal surfaces with singularities at infinity.....	70 ₂	465-491
BING, R. H. A characterization of 3-space by partitionings..	70 ₁	15- 27
BING, R. H., and FLOYD, E. E. Coverings with connected intersections.....	69 ₂	387-391
BIRKHOFF, G., and FRINK, O. Representations of lattices by sets.....	64 ₂	299-316
BIRKHOFF, G., and WHITMAN, P. M. Representation of Jordan and Lie algebras.....	65 ₁	116-136
BLUMENTHAL, L. M. Congruence and superposability in elliptic space.....	62 ₃	431-451
BOAS, R. P. Density theorems for power series and complete sets.....	61 ₁	54- 68
— The Charlier B-series.....	67 ₁	206-216
BOWEN, N. A., and MACINTYRE, A. J. Some theorems on integral functions with negative zeros.....	70 ₁	114-126
BROWN, B., and MCCOY, N. H. Some theorems on groups with applications to ring theory.....	69 ₂	302-311
BUCK, R. C. Interpolation series.....	64 ₂	283-298
CALABI, E., and DVORETSKY, A. Convergence- and sum-factors for series of complex numbers.....	70 ₁	177-194
CALDERÓN, A. P. On the behaviour of harmonic functions at the boundary.....	68 ₁	47- 54
— On a theorem of Marcinkiewicz and Zygmund.....	68 ₁	55- 61
CAMERON, R. H., and GRAVES, R. E. Additive functionals on a space of continuous functions. I.....	70 ₁	160-176
CAMERON, R. H., and MARTIN, W. T. The transformation of Wiener integrals by nonlinear transformations.....	66 ₂	253-283
CARRUTH, P. W. Generalized power series fields.....	63 ₃	548-559
CHANG, S. C. Contributions to projective theory of singular points of space curves.....	61 ₃	369-377
— Errata for Contributions to projective theory of singular points of space curves.....	62 ₃	548
CHANG, S. H. On the distribution of the characteristic values and singular values of linear integral equations.....	67 ₂	351-367
CHEN, Y. W. Existence of minimal surfaces with a simple pole at infinity and condition of transversality on the surface of a cylinder.....	65 ₃	331-347
— Errata for Existence of minimal surfaces with a simple pole at infinity and condition of transversality on the surface of a cylinder.....	66 ₂	492
CHERN, S. S., and HU, S. T. Parallelisability of principal fibre bundles.....	67 ₂	304-309

	VOL.	PAGES
CHERN, S. S., and SUN, Y. F. The imbedding theorem for fibre bundles.....	67 ₂	286-303
CERRY, T. M. Uniform asymptotic formulae for functions with transition points.....	68 ₂	224-257
CHEVALLEY, C., and EILENBERG, S. Cohomology theory of Lie groups and Lie algebras.....	63 ₁	85-124
CHOW, W. L. On the genus of curves of an algebraic system..	65 ₁	137-140
CHUNG, K. L. On the maximum partial sums of sequences of independent random variables.....	64 ₂	205-233
— Errata for On the maximum partial sums of sequences of independent random variables.....	64 ₃	596
— An estimate concerning the Kolmogoroff limit distribution.....	67 ₁	36- 50
CLIFFORD, A. H. Extensions of semigroups.....	68 ₂	165-173
COHEN, L. W., and GOFFMAN, C. A theory of transfinite convergence.....	66 ₁	65- 74
— The topology of ordered Abelian groups.....	67 ₂	310-319
COHN, R. M. Manifolds of difference polynomials.....	64 ₁	133-172
COLLINGWOOD, E. F. Exceptional values of meromorphic functions.....	66 ₂	308-346
CRONIN, J. The existence of multiple solutions of elliptic differential equations.....	68 ₁	105-131
— Branch points of solutions of equations in Banach space	69 ₂	208-231
DAVENPORT, H. Euclid's algorithm in certain quartic fields..	68 ₃	508-532
DAY, M. M. Polygons circumscribed about closed convex curves.....	62 ₂	315-319
— Some characterizations of inner-product spaces.....	62 ₂	320-337
— Means for the bounded functions and ergodicity of the bounded representations of semi-groups.....	69 ₂	276-291
DILWORTH, R. P. The normal completion of the lattice of continuous functions.....	68 ₃	427-438
DOLPH, C. L. Nonlinear integral equations of the Hammerstein type.....	66 ₂	289-307
DOOB, J. L. Asymptotic properties of Markoff transition probabilities.....	63 ₃	393-421
— Renewal theory from the point of view of the theory of probability.....	63 ₃	422-438
DUSHNIK, B. Maximal sums of ordinals.....	62 ₂	240-247
DVORETZKY, A., and CALABI, E. Convergence- and sum-factors for series of complex numbers.....	70 ₁	177-194
EBERLEIN, W. F. Abstract ergodic theorems and weak almost periodic functions.....	67 ₁	217-240

	VOL.	PAGES
EDREI, A. On mappings of a uniform space onto itself.	69 ₁	528-536
EICHLER, M. M. E. On the differential equation $u_{xx} + u_{yy} + N(x)u = 0$	65 ₂	259-278
EILENBERG, S. Homology of spaces with operators. I.	61 ₁	378-417
— Errata for Homology of spaces with operators. I.	62 ₃	548
EILENBERG, S., and CHEVALLEY, C. Cohomology theory of Lie groups and Lie algebras.	63 ₁	85-124
EILENBERG, S., and MACLANE, S. Cohomology and Galois theory. I. Normality of algebras and Teichmüller's co-cycle.	64 ₁	1- 20
— Homology of spaces with operators. II.	65 ₁	49- 99
ELLIOTT, H. M., and WALSH, J. L. Polynomial approximation to harmonic and analytic functions: Generalized continuity conditions.	68 ₂	183-203
ELLIOTT, H. M., WALSH, J. L., and SEWELL, W. E. On the degree of polynomial approximation to harmonic and analytic functions.	67 ₂	381-420
ERDÖS, P. On the strong law of large numbers.	67 ₁	51- 56
ERDÖS, P., and FRIED, H. On the connection between gaps in power series and the roots of their partial sums.	62 ₁	53- 61
FEDERER, H. The (ϕ, k) rectifiable subsets of n space.	62 ₁	114-192
— Dimension and measure.	62 ₃	536-547
FEDERER, H., and JÓNSSON, B. Some properties of free groups.	68 ₁	1- 27
FELLER, W. Fluctuation theory of recurrent events.	67 ₁	98-119
FERRAND, J. Note on a paper by Mandelbrojt and MacLane.	61 ₁	468
FINE, N. J. On the Walsh functions.	65 ₃	372-414
— The generalized Walsh functions.	69 ₁	66- 77
— On the asymptotic distribution of the elementary symmetric functions (mod p).	69 ₁	109-129
FLOYD, E. E., and BING, R. H. Coverings with connected intersections.	69 ₃	387-391
FOSTER, A. L. On the permutational representation of general sets of operations by partition lattices.	66 ₂	366-388
FRANK, E. On the real parts of the zeros of complex polynomials and applications to continued fraction expansions of analytic functions.	62 ₂	272-283
FREILICH, G. On the measure of cartesian product sets.	69 ₂	232-275
FRIED, H., and ERDÖS, P. On the connection between gaps in power series and the roots of their partial sums.	62 ₁	53- 61
FRINK, O., and BIRKHOFF, G. Representations of lattices by sets.	64 ₂	299-316
FRINK, O., and KRALL, H. L. A new class of orthogonal poly-
